

TAJIMA CARPET TILE OVERVIEW

TAJIMA ROOFING INC.

屋根で守り、
床で支える。

TAJIMA
CARPET
TILE

MADE IN JAPAN, FOR OVER 35 YEARS

Expertise built over decades

Produced at our own factory in Japan

All products are produced at our factory in Okayama Prefecture.

37 years in business

We've been creating carpet tiles for nearly 40 years.

TAJIMA
CARPET
TILE

FOR ENVIRONMENT

How we serve the environment

20% lighter

Lighter weight

Tile is manufactured to be 20% lighter than with traditional methods.

Helps reduce CO₂ from shipping.

Reduces the burden on workers.

Improves installability.

Recycled yarn

Some Tajima products also feature yarn recycled from sources such as fishing nets.

Recycle

Cutoffs from carpet tiles are reused to create new tiles and sheets.

TAJIMA
CARPET
TILE

PRODUCT CONCEPT

Five advantages of TAJIMA CARPET TILE

1.

Made with solution-dyed nylon thread

Solution-dyed nylon thread is highly resistant to direct sunlight and chlorine bleach, to better resist fading.

Before applying bleach

24 hours after applying bleach

Color has not faded

2.

Stain resistant finish as standard

Stain resistant and easier to clean, with long-lasting water and oil repellency.

Stain resistant finish

No stain resistant finish

TAJIMA
CARPET
TILE

PRODUCT CONCEPT

Five advantages of TAJIMA CARPET TILE

3.

Products that meet
official standards

Reliable product quality that meets official
construction standards for pile density.

Before testing

Immediately after
removing weight

3 hours after
removing weight

Settling test: exceptional ability to recover pile shape is apparent

4.

High quality thread

Tajima tile carpeting uses high-quality thread
that remains clean and attractive in appearance
for longer.

5.

Green Label
Plus certification

Meets standards established by the US
Carpet and Rug Institute (CRI) for volatile
compounds.

* The above may not apply to all products. Please contact us for information on testing methods or other details.
